Education

National Institute Of Technology, Manipur

Bachelor of Technology in Computer Science and Engineering | 9.05 CGPA

2022 – Present

Imphal, Manipur

Resonance International School

Higher Secondary Education | 82.8%

2020 – 2021

Muzaffarpur, Bihar

Anand Prep Public School

Matriculation | 92.8%

2018 – 2019

Muzaffarpur, Bihar

Experience

ClanX 🔗

Oct 2023 – Dec 2023

Data Science Intern

Remote

- Utilized Python extensively to clean and analyze large datasets, enabling data-driven decision-making such as shortlisting resumes.
- Created clear visualizations using Pandas and MongoDB to convey 50% more effective data insights.
- Collaborated with teams to embed solutions into business operations, boosting efficiency.
- Developed machine learning models to identify trends and patterns in data, driving strategic improvements in business processes.

Projects

Real-Estate Rental App 🔗 | Next, Node.js, AWS, PostgreSQL | 🐙

August 2025

- A modern, production-ready real estate web application to manage property listings, facilitate buy/rent properties.
- Project is authenticated using AWS Cognito, hosted on AWS EC2 Cloud, and data is stored on AWS S3.

Charging-Stations-App 🔗 | Vue, Node.js, Express.js, MongoDB | 🐙

May 2025

- Developed a full-stack EV Charging Stations Locator web application using Vue.js, Node.js, and MongoDB.
- Implemented secure authentication, and integrated GeoJSON with MapTiler for map visualization.
- Deployed the application with Vercel (frontend) and Render (backend) for 100% production-ready performance.

GitHub-Campus-Experts-Unilag 🔗 | Node.js, TypeScript, React.js, vite | 🐙

October 2024

- The main aim of this is to create a tool that can help you automate 90% of your tasks.
- It provides tools such as formatters, collaboration, and code generation all in 1 place.
- It aims to increase the development efficiency of at least 5000 monthly users.

Leetcode Fetcher Extension | Node.js, RestAPI, CLI | 🐙

July 2025

- A Node.js tool to fetch and save all your LeetCode submissions — directly to your local system.

Technical Skills

Programming Languages: C++, Python, JavaScript

Developer Tools: VS Code, Gen AI, AWS Cloud, Postman

Technologies/Frameworks: Next, React, MySQL, Node.js, Pandas, PostgreSQL, TensorFlow

CS Fundamentals: Data Structures, System Design, Operating Systems, Computer Network, DBMS

Interpersonal Skills: Communication Skills, Problem-Solving, Time-Management

Certifications

- Data Structures and Algorithms using C and C++ | UDEMY | 🔗
- Node.js Full Stack Developer | StudySection | 🔗

Achievements

- Solved 400+ LeetCode questions with a contest rating of 1800+. 🏆 [\(LeetCode Profile\)](#)
- Secured 1st rank in college in the AI quiz contest conducted by KIMO AI
- Secured a top 5 position with my team in the Intra-college hackathon to participate in SIH 2024
